CITY MANAGER SUPPORTING INFORMATION:

On January 8, 2001, the City Council adopted Ordinance 18910 approving amendments to the Land Development Code (LDC) as part of the Second LDC Update. The amendments were then submitted to the California Coastal Commission for certification as part of the City of San Diego's Local Coastal Program.

On March 14, 2001, the California Coastal Commission approved several of the proposed changes as de minimus Local Coastal Program (LCP) Amendments. The remaining amendments, that did not qualify as de minimus, were approved by the Coastal Commission on May 8, 2001 with the exception of the floodplain regulations. The Coastal Commission staff requested additional information and clarification on the proposed amendments, specifically related to allowable uses within floodways and floodplains and procedures for notifying the Coastal Commission when FEMA adopts map changes.

On August 7, 2001, the Coastal Commission held a hearing to consider the amendments to the floodplain regulations proposed by the City of San Diego as well as suggested modifications to the amendments proposed by Coastal Commission staff. No action was taken at the hearing and the item was granted a time extension. Since the August hearing City staff met with Coastal Commission staff to resolve the outstanding issues pertaining to the allowable uses in floodplains and the notification procedures for map changes made by FEMA.

On October 12, 2001, the Coastal Commission approved the amendments to the LDC floodplain regulations with six modifications made by Coastal Commission staff. Three of the six modifications are minor and are intended to clarify terminology and references. Two of the modifications are intended to further restrict three land uses in agricultural zones within the Coastal Overlay Zone. Residential Care Facilities, Transitional Housing, and Bed and Breakfast Establishments will be prohibited in agricultural zones within Special Flood Hazard Areas. The last modification establishes a process for the City Engineer to notify the Coastal Commission staff of changes to FEMA's Flood Insurance Rate Maps. Attachment 1 [to City Manager's Report] includes a strikeout/underline version of the Coastal Commission's approved changes.

ENVIRONMENTAL IMPACT:

Action on adopting the modifications to the Floodplain Regulations is categorically exempt from

CEQA pursuant to the State Guidelines Section 15061(b)(3).

on all application materials and staff project assessment letters.

SUPPORTING INFORMATION:

This project proposes to subdivide and develop a 79.02 acre site consisting of a 51.36 acre remainder lot containing the State Route 56 Right-of-Way and ownership of land to the north and the 27.66 acre, 19-lot Planned Site Development area on the south side of SR 56. The developable parcel is located on the southwest corner of SR-56 and Camino Ruiz in the existing AR-1-1 (proposed IP-2-1, CR-1-2 and OC-1-1) zones within the Torrey Highlands Subarea IV Plan area. The project is proposed to be developed with 551,000 square-feet of office and light industrial use subject to the underlying zoning and Design Guidelines and Development Standards adopted. Future review of specific lot development proposals will be subject to a Process 2 review.

The Planning Commission considered this project on February 7, 2002, and voted 5-0, with no public opposition, to recommend that the City Council adopt staff recommendations, as presented in the Planning Commission Report No. P-02-003. The Planning Commission deleted Figure 6-D from the accompanying "Design Guidelines and Development Standards."

The Planning Commission is the planning group for the Torrey Highlands Subarea IV plan area. The Rancho Penasquitos Planning Board for the community immediately east, voted 14-0-1 on December 5, 2001, to support the project.

The City Manager recommends that the City Council adopt the Resolutions certifying Mitigated Negative Declaration No. 40-0315, and the Mitigation Monitoring and Reporting Program (MMRP), approving Vesting Tentative Map No. 40-0315, approving Planned Development and Site Development Permit and MHPA Boundary Adjustment No. 40-0315 and adopt the Ordinance approving Rezone application No. 40-0315.

FISCAL IMPACT:

All costs associated with the project are recovered from a deposit provided by the applicant.

TRAFFIC IMPACT:

The project is estimated to generate 6,681 average daily trips (ADT), 1,000 of these are estimated to occur on I-15 north of SR-56, which has an estimated near term project volume of 228,000 ADT. Caltrans is planning to widen I-15 to provide 2 additional lanes by 2005. This Planning Area will contribute \$5.9 million for the widening of SR-56 from 4 to 6 lanes, and \$9.5 million for the construction of the SR-56/Camino Ruiz interchange. This project is subject to the Torrey Highlands Subarea IV Transportation Phasing Plan. The Torrey Highlands Employment Center will improve the job/housing balance along SR-56. Project development is expected about the year 2005-2006.

Ewell/Christiansen/RMK

LEGAL DESCRIPTION:

ADOPTION AGENDA, HEARINGS

NOTICED HEARINGS:

ITEM-332: Determination of the Citywide Vacancy Rate for Residential Rental Units.

Matter of the determination of the Citywide Apartment Vacancy Rate for residential rental units. This determination is required by Municipal Code Section 141.0302 "Companion Units." If the vacancy rate is determined to be less than five percent, the City will continue to accept Conditional Use Permit applications for companion units for one year. Council must take action prior to April 1, 2002.

(Community Plan Areas-All. Districts-Citywide.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-2002-1118)

Adoption of a Resolution certifying that the Citywide average vacancy rate for residential rental units in the City of San Diego is determined to be below 5 percent for the calendar year 2001;

That pursuant to the above determination and the provisions of San Diego Municipal Code [SDMC] Section 141.0302, the regulations contained in SDMC Section 141.0302 will be effective from April 1, 2002, to April 1, 2003.

OTHER RECOMMENDATIONS:

Planning Commission on February 7, 2002, voted 5 - 0 to recommend approval; no opposition.

Ayes: Butler, Brown, Anderson, Lettieri, Schultz
Not present: Garcia, Stryker

This is a matter of City-wide effect. On January 22, 2002, an informational report was given as part of a staff report to the Community Planners Committee. No action was

requested.

SUPPORTING INFORMATION:

By April 1 of each year, the City Council is required to determine whether the average annual vacancy rate for residential rental units during the preceding calendar year was greater or less than five percent. This determination is required by Municipal Code Section 141.0302 “Development Regulations for Companion Units.”

If the vacancy rate is determined to be above five percent for the preceding calendar year, the City will not accept applications for companion units for one year. If the vacancy rate is determined to be below five percent, the City will accept companion unit applications for one year.

For 2001 two independent published sources found the vacancy rate to be substantially below five percent, ranging from 1.6 percent to 2.3 percent.

On February 7, 2002 the Planning Commission found the average annual vacancy rate to be below five percent and forwarded its recommendation to the City Council.

FISCAL IMPACT: None.

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolutions:

Subitem-A: (R-2002-1137)

Adoption of a Resolution certifying that the information contained in Negative Declaration, LDR No. 41-0536, has been completed in compliance with the California Environmental Quality Act of 1970 (California Public Resources Code section 2100 et seq.), as amended, and the State guidelines thereto (California Code of Regulations section 1500 et seq.), that the declaration reflects the independent judgement of the City of San Diego as Lead Agency and that the information contained in said report, together with any comments received during the public review process, has been reviewed and considered by the Council in connection with the approval of the Balboa Park Central Mesa Precise Plan amendment to allow construction of the West Arcade Project;

That the Council finds, based upon the Initial Study and any comments received, that there is no substantial evidence that the project will have a significant effect on the environment and therefore the Negative declaration is approved;

Subitem-B: (R-2002-1138)

Adoption of a Resolution authorizing an amendment to the Balboa Park Central Mesa Precise Plan to add construction of the West Arcade at the Prado in Balboa Park.

The Balboa Park Committee Community Planning Group has recommended approval of this project.

CITY MANAGER SUPPORTING INFORMATION:

The West Arcade Project is the last section of the Prado arcades to be constructed, located on the northwest side of El Prado/Laurel Street and adjacent to the Museum of Art sculpture garden.

The proposed plan amendments to the Balboa Park Central Mesa Precise Plan will allow for the West Arcade to be built in the Prado area of the park. Page 284, the Prado Streetscape, of the Precise Plan is being modified to graphically show the location of the West Arcade and identify that it will be constructed in the original footprint of the 1915 arcade. Page 286, Old Globe Plaza, is being modified to graphically show the location of the west end of the West Arcade and how it relates to the Old Globe Plaza. Page 290, Plaza de Panama Plan, is being modified to show graphically the location of the east end of the West Arcade and how it relates to the Plaza.

The West Arcade will be a partial reconstruction of the original arcade, based on the original building plans found at the San Diego Central Library. The west end will be considered a new addition due to the Fire Department requirement for an enlarged arch for fire access to the Old Globe. Building materials and colors will be selected based on the original architecture plans. The proposed landscaping adjacent to the West Arcade will incorporate the original landscape design by maintaining the lawn area and providing a shrub bed adjacent to the arcade. Plant material used in the original landscape will be incorporated into the new design. Coprosma shrubs will be used along the railings and Bignonia and Bougainvillia vines will be planted along the wall of the arcade for color and form.

FISCAL IMPACT: None.

The Lower West Parking Complex ("Structure") is located north of and immediately adjacent to the existing 376-space surface parking lot, on an expanded Site No. 11, west of Marian Way in the Linda Vista Community Plan area. The rectangularly-shaped Structure (186' x 334') consists of approximately 230,000 square-feet including five-levels (including roof level) oriented in an east-west configuration similar to the existing surface lot. The Structure is designed to be partially embedded into the hillside in a terraced configuration, with a maximum height of approximately 57' (west elevation), and having a coverage of approximately 62,000-square-feet. Construction materials are proposed to include plaster cement in a tan color tone to match existing campus buildings, with medium taupe contrasting moldings and architectural detailing. Red barrel clay tile roofs will be included with cobalt blue glazed accent tile. Site grading includes 25,000 cubic yards of cut, and 5,000 cubic yards of fill, with 20,000 cubic yards being exported. Resulting fill slopes and retaining walls will be landscaped to reduce visual impacts.

The Structure is intended to accommodate a total of 703 parking stalls on the five levels. A southerly portion of the Structure is located on a northerly portion of the 376-space surface lot, eliminating 69 parking spaces (resulting in 307 surface parking spaces). A total of 1,010 (307 surface + 703 Structure) spaces would be provided resulting in a net increase of 634 parking spaces (1,010 - 376). Parking spaces and driveway aisles will conform to City standards.
